this is a free account

sign up will take you out of the app for payment purposes

let's go!

- this is page is redundant...if a free account, don't need to sign up and pay via the website. Should swipe straight to explorer (as across). User can already sign up for wanderer account in previous page)

explorer

this is a paid account

sign up will take you out of the app for payment purposes

- Possibly remove the image carousel from one of these pages. IE: if user chooses "Wanderer" on the first page, go straight to questionnaire, if they chose a paid account, go to the next page but instead of an image carousel, just a static image of the choice with the notice of being taken out of app? Or immediately take out of app to website?

this is a paid account
your college journey begins now...

take me home

personalize
my journey

- can it not say 'this is a paid/free account'. It should be welcome to myguided, [tier name - wanderer/explorer/adventurer etc]! As across -->
- with confetti?

my journey

- spelling on "journey"

a littel about you

what's your application year?

(when will you be enrolling in college?)

yyyy

next

skip

- spelling 'littel'
- spacing bewteen enrolling in college

- are there more than 3 areas of study? There may be! I just can't see if it's scrollable.

(Arts
Engineering
Humanities
Literatures & Languages
Mathematics
Sciences
Social Sciences
Technology
Other)

- something to show if scrollable, IE: white gradient to the bottom or scrollbar?

a littel about you

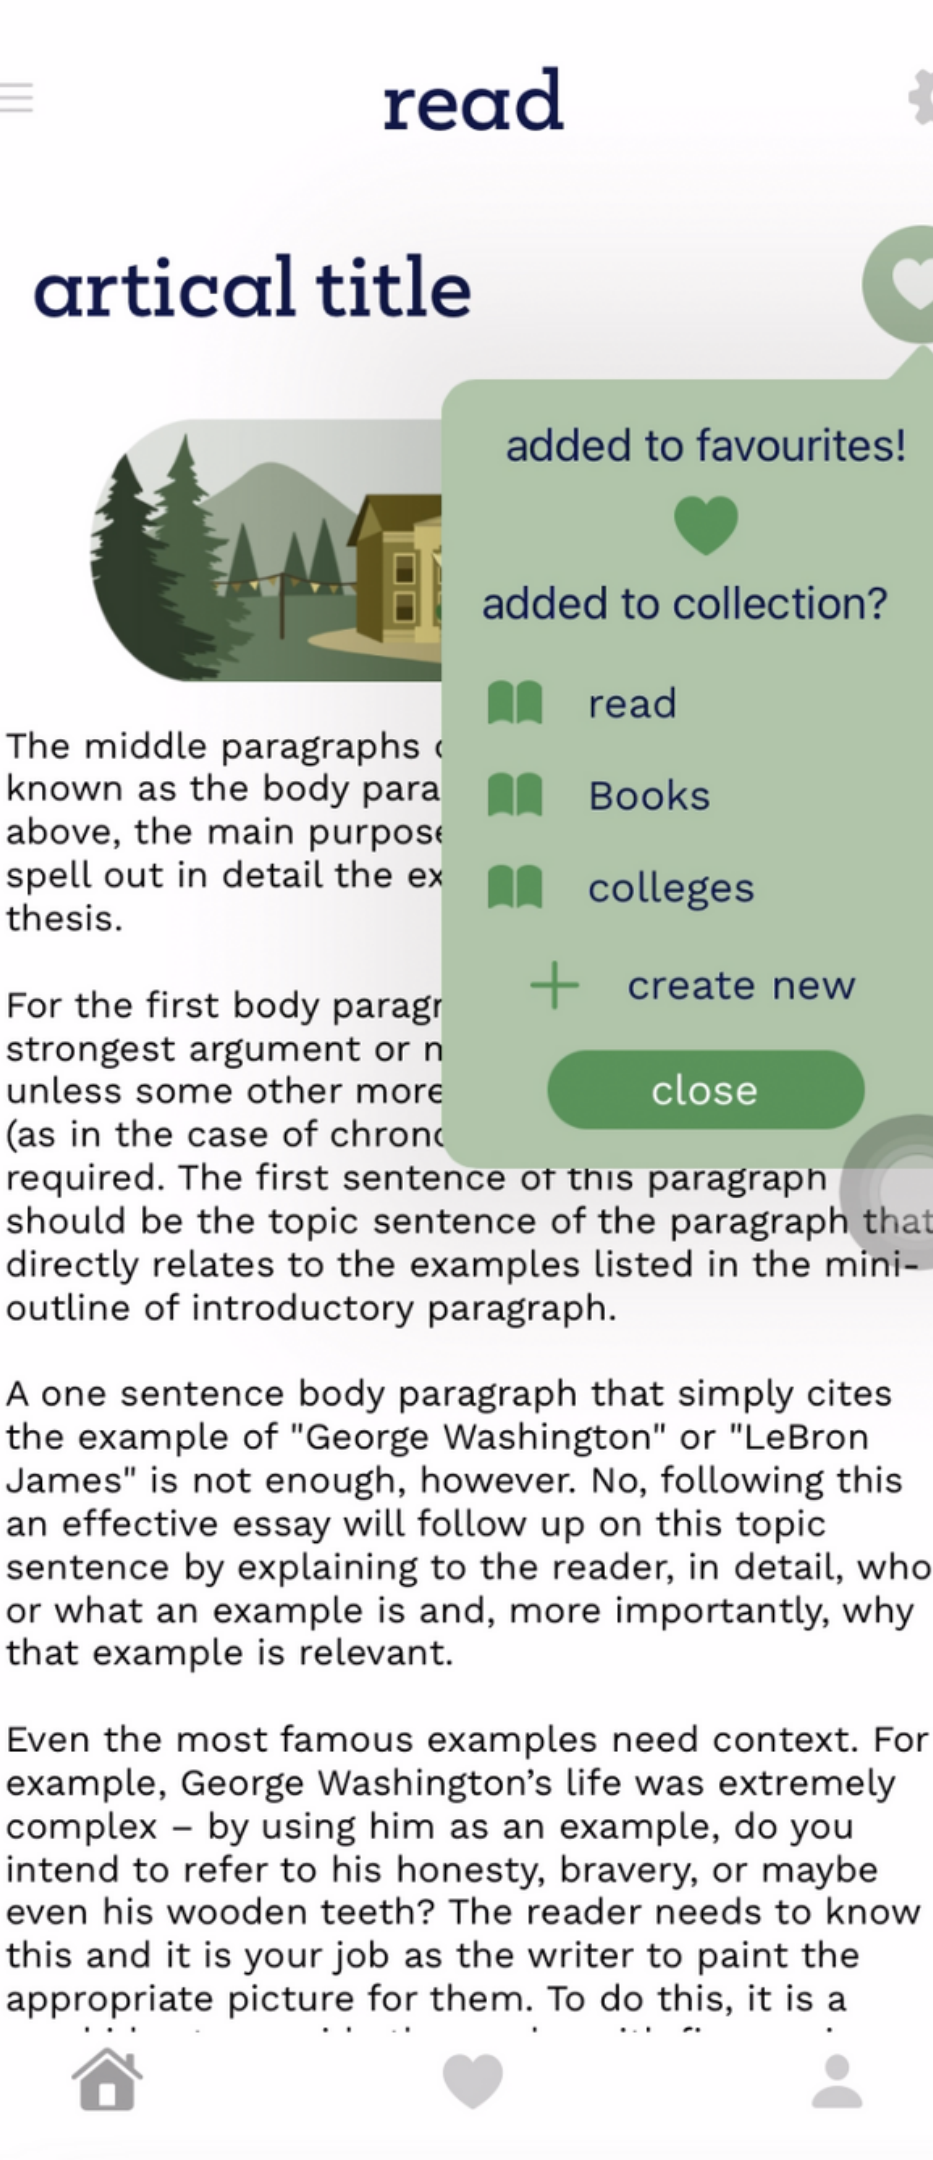

what areas of study are you interested in?

- Arts
- Engineering
- Humanities

next

skip

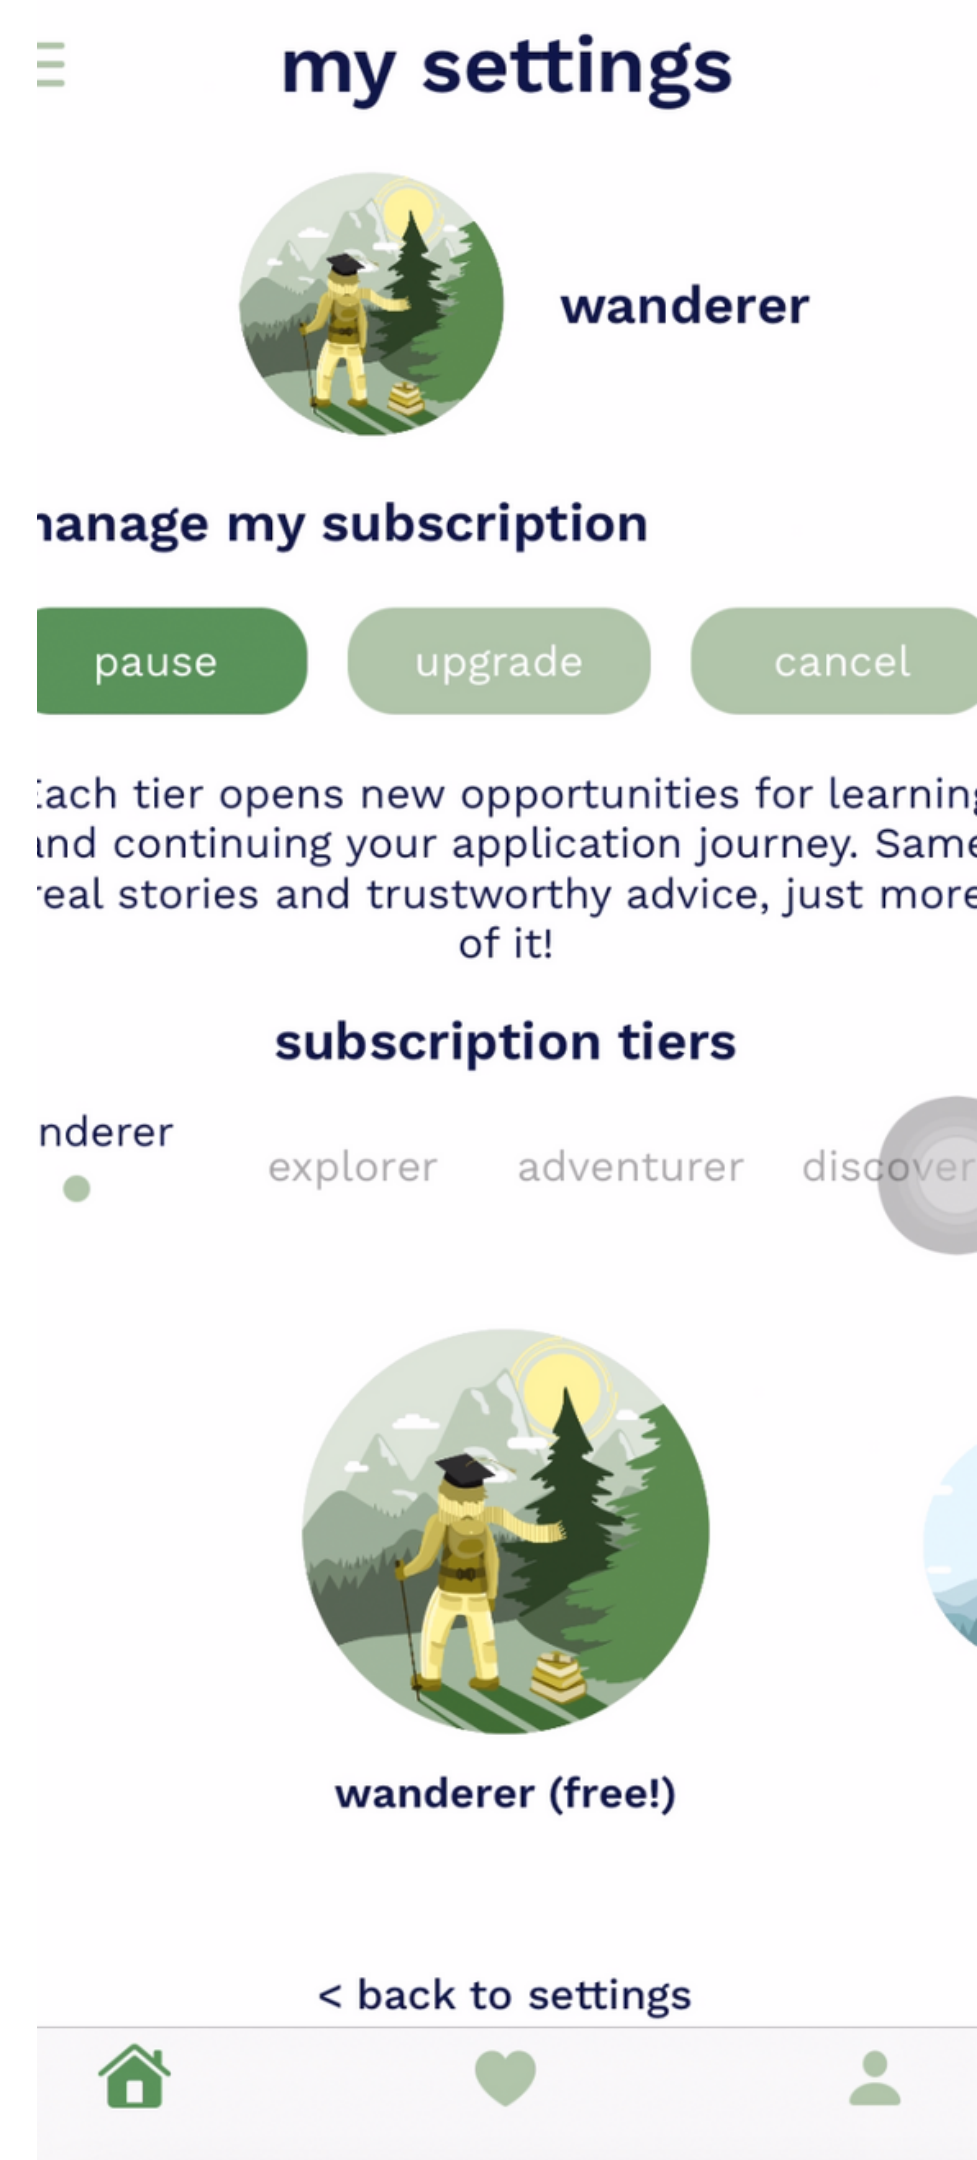

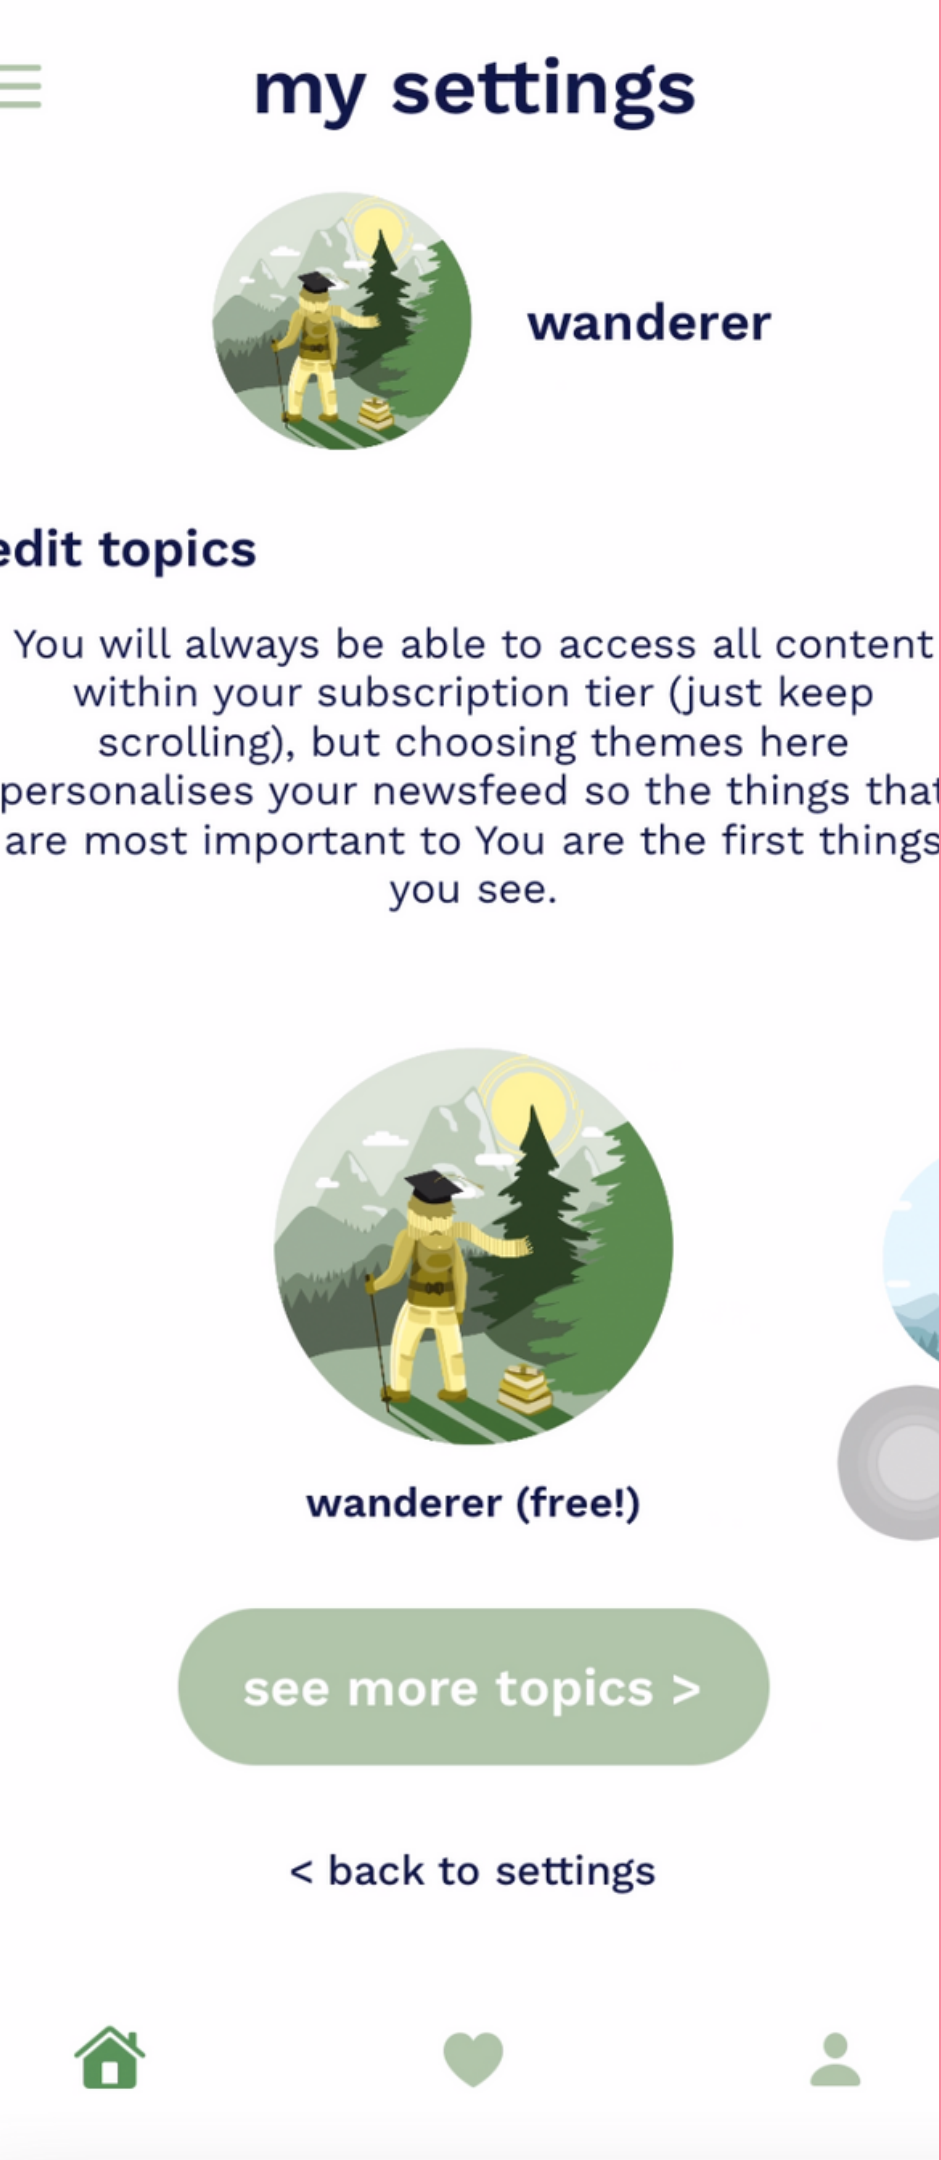

- add (not added) to collection?
- should there be example collections we should provide?

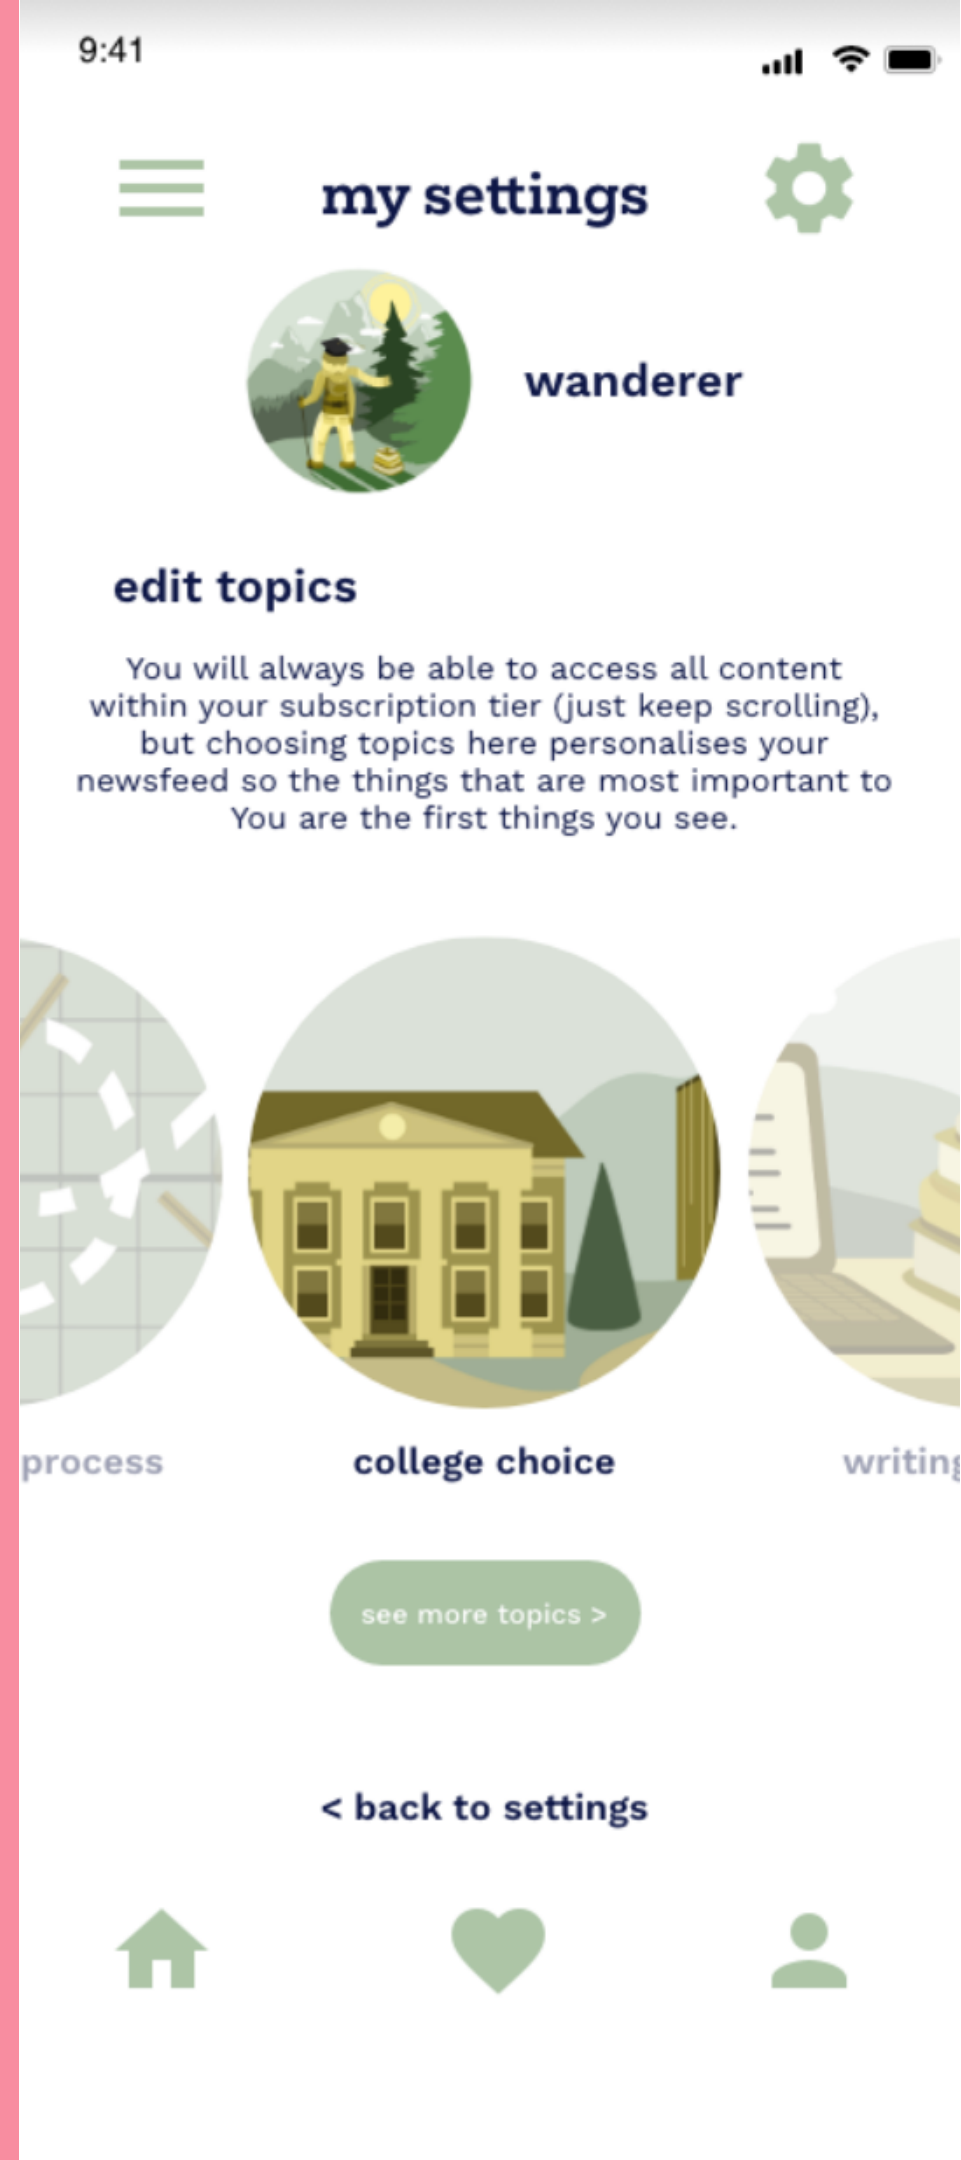

If so, I will think of some

- my settings font - Mokoko please
- should the pause/cancel buttons be smaller?

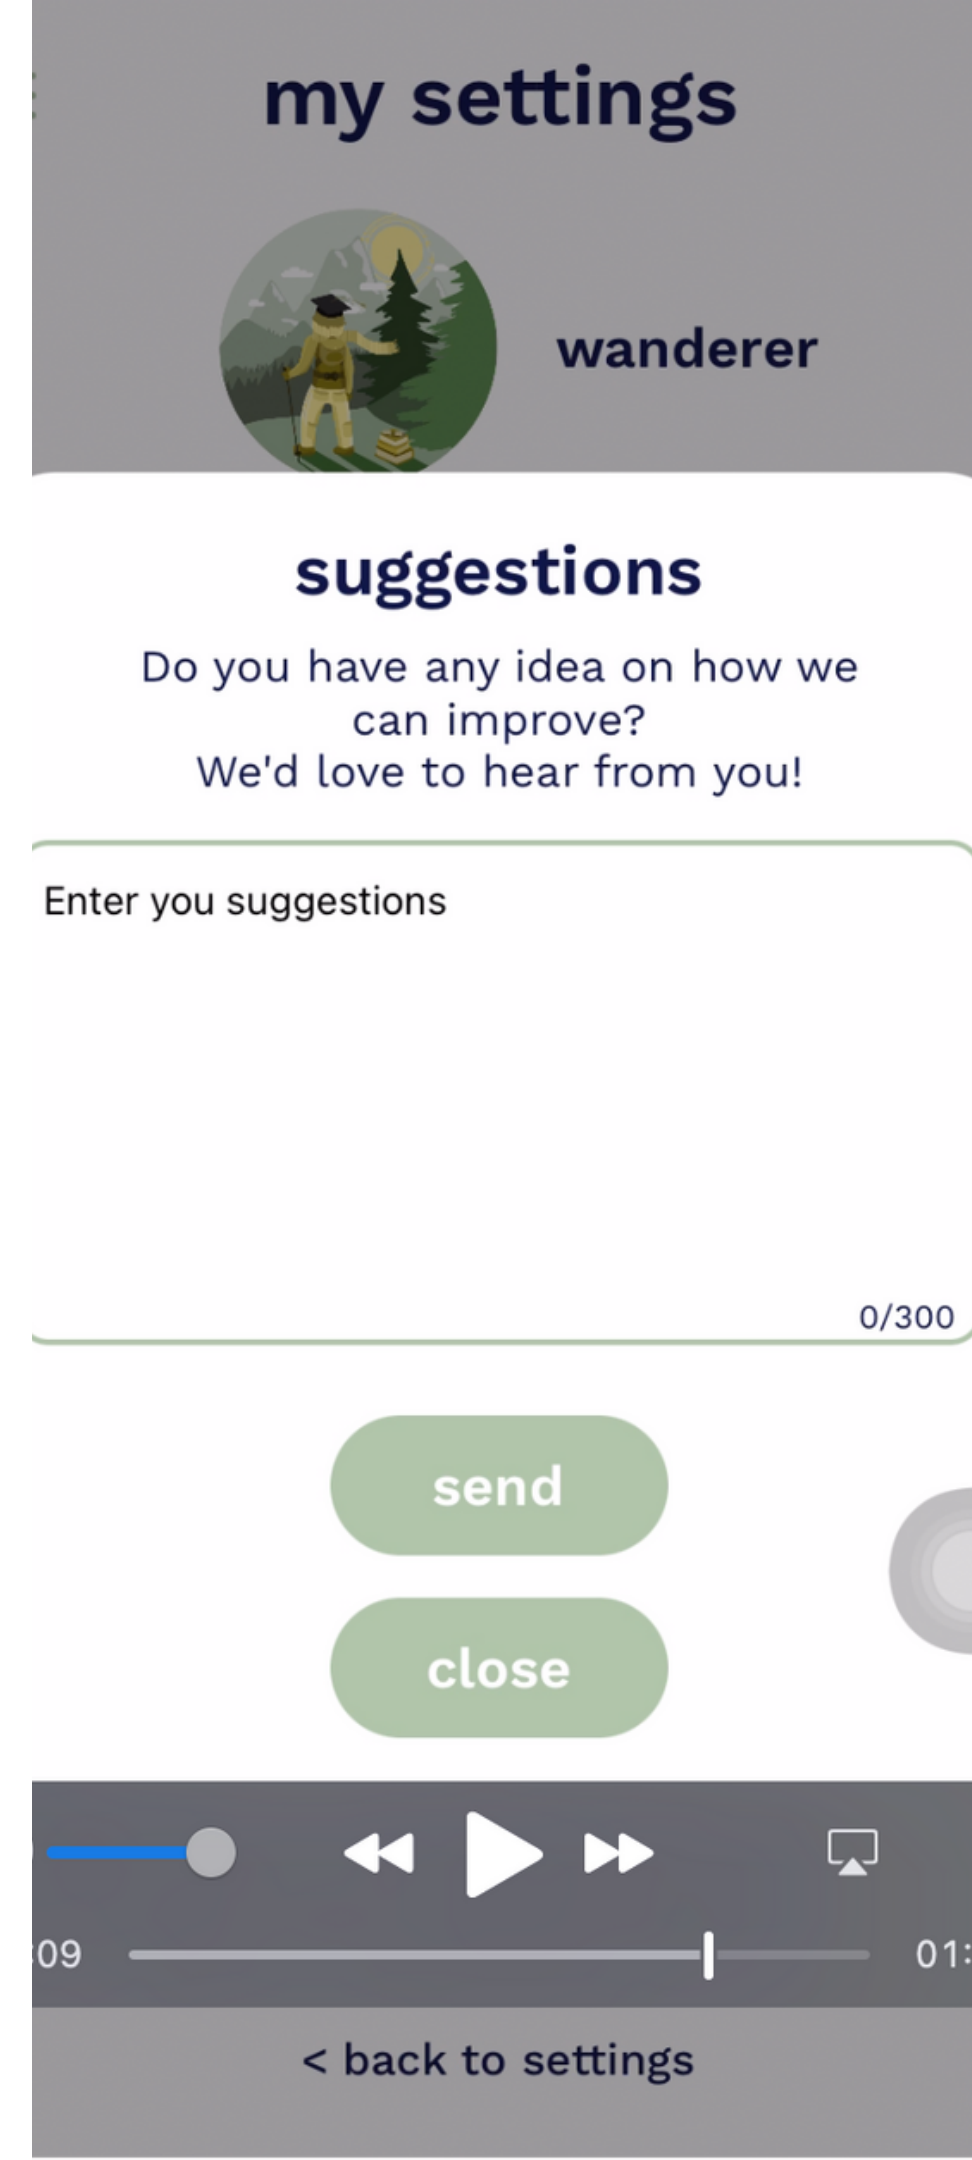

- my settings - font? Mokoko please.
- topics are not subscription tiers, see across for design - the current pop up (last image here) is perfect! Just need to copy those topics into <-
- Wording - I should be able to fix all this in the CMS?

- my settings - font? Mokoko please.
- I sent you some FAQs? Would be great to see what they look like with spacing etc.

- Does there have to be text in the box? Would be great if not, but if needed, can it say : Start here...

welcome to myguided.

wanderer

discoverer

< back to settings

- remove "discoverer" for now as it's not ready yet as a tier/ wont be available

- instead of "send" could we have "confirm"? with the button greyed out until a number is inputted.
- Would it be worth including a verification screen? IE: once confirm is pressed it leads to pop up for a verification code?
